PRACTICE NEWS - PRESENTATIONS/TRAININGS

Connecticut Pediatric Neuropsychology Associates is pleased to offer tailored presentations and trainings to medical professionals, school districts, psychotherapy practices, parent groups, and more.

Our clinical team of neuropsychology, psychiatry, and social work is available to provide informational presentations and specific trainings on a variety of topics to meet your organization's needs.

Our services include:

- Professional development presentations to school districts
- Overviews and in-depth in-service presentations on various conditions and interventions
- Trainings on neuropsychological/psychological assessment instruments
- Psychoeducational talks to parent groups
- Trainings for medical professionals (including psychiatrists and pediatricians) on psychopharmacology and psychiatric assessment
